

# Annotated Academic Performance Assessment School Results: Overall Score and Rating

## Unweighted Measures

For the 2014 Academic Performance Assessment, only Measures 1a, 2a, and 2b are used to evaluate a school's academic performance. For Measures 1b, 1c, 2c, and 3, data are unavailable, missing, or the measure is informational only. Please see the Academic Performance Framework for detailed information on these measures.

### Measure 1a

Measure 1a evaluates performance under the state accountability system (Strive HI). For schools serving more than one grade level, such as K-8 or K-12 charter schools, an simulated overall API weighted by enrollment at each division has been calculated.

## SY 13-14 Academic Performance Assessment: Overall Score and Rating

Example Aloha Academy	Strive HI Academic Performance Index (API)	Strive HI Performance Classification	Annual Measurable Outcomes		High-Needs Students Proficiency Rates		High-Needs Students Growth		High-Needs Adequate Growth		School-Specific Measures
	Measure 1a	Measure 1b	Measure 1c		Measure 2a		Measure 2b		Measure 2c		Measure 3
			Math	Reading	Math	Reading	Math	Reading	Math	Reading	
Raw Score	213	-	-	-	72	71	65	64	-	-	-
Step 1: Calculate Points	50.09	-	-	-	78.68	67.08	76.00	78.00	-	-	-
Applied Weight*	65%	-	-	-	6.75%	6.75%	10.75%	10.75%	-	-	-
Step 2: Weight Points	32.56	-	-	-	5.31	4.53	8.17	8.39	-	-	-
Step 3: Overall Score	58.95										

Rating Category	Overall Score Target Ranges
Exceeds Standard	75-100
Meets Standard	50-74
Does Not Meet Standard	25-49
Falls Far Below Standard	Below 25

## High-Needs Students

The "High-Needs" student group includes all students with Disadvantaged, Special Education, or English Language Learner status. Measure 2a compares the proficiency of a school's High-Needs students against statewide average proficiency rates of all High-Needs students. Measure 2b evaluates the growth of the school's High-Needs students.

### Calculating the Score

Raw Score: The raw value of the measure.

Step 1: Calculate Points: The points earned within this measure.

Step 2: Weight Points: The weight of the points within the Academic Performance Framework.

Step 3: Overall Score. The product of the weight of the measure applied to the points earned in the measure. These points, summed with the points earned from the other measures, equal the Overall Score.
